

Supplies/Vendor Portal for Dynamics ERP

Dynamics eShop's Supplier/Vendor Portal is specially designed to assist your vendors with a simplified, online platform. This collaborative platform seamlessly integrates with Microsoft Dynamics ERP in real time.

Streamline your vendor onboarding process by adding RFQ, contracts, or other documents online that vendors can download, sign, and upload back into the portal. Facilitate access to PO, PQs, and invoices so it's all in one place. With our Supplier/Vendor portal, your options are limitless.

## How This Benefits Your Business

- 1) Offers single, secure platform for two-way communication
- 2) Provides greater transparency, reduced redundancy and manual errors
- 3) Receive email alerts and notifications when vendors have completed a specified process

## Seamless Communication

Provides full integration between the portal and your website eliminating the need for duplication of data.

## Real-time Updates

Accurate information displayed in real-time to customers on the portal. Online requests are instantly pro-cessed to the ERP for faster service.

## Vendor Onboarding

Quickly onboard vendors with a simple online registration process. They can manage their profiles on the customized portal.

## Catalog Management

Add multiple users, update profile information and maintain products/supplies in the online catalog.

## Dashboards

Create dashboards to view statuses on specific activities or overall statistics on the portal.

## Reporting

Surface any report from NAV, such as inventory, catalogs, order history and invoices.
